**LaGrange Lions festival promises fireworks**

If you haven't had your fill of fireworks, you'll want to come to the LaGrange Lions Annual Festival later this month.

Fireworks will be 10:15 p.m. July 25, with a rain date of July 26.

But Lions Park Manager Beverly Fox said you might want to come to the park to get a good vantage point because the fireworks will be closer to the ground.

"A lot of times people will sit in their yards and watch, but this year they might want to be at the park," she said.

The festival is 6 to 11 p.m. on July 24, 6 to 11 p.m. on July 25 and 1 to 11 p.m. July 26 at the Lions Park, 240 Glendale St.

The parade will kick off the festival at 7 p.m. on July 24.

Kids Day and the Little Miss contest will be on the afternoon of July 25.

For vendor space, call Mary Kline at (440) 926-3543.

For parade forms, call Beverly Fox at (440) 458-6781.

For membership information, call Jerry Smith at (440) 967-0820.

**Black River student attends supercomputer academy**

Carissa Delewski from Black River High School and the Medina County Career Center participated in the Ohio Supercomputer Center's STEM Academy in Computational Science and Engineering from June 16 to July 2.

Participants of the 13-day workshop learned how to build, use and test computer models of phenomena ranging from the descent of a skydiver to the strength of a steel beam and the transport of heat through a system to the growth of an aquatic population.

The academy consisted of short lectures, individual project assignments, physical experiments and data gathering and a capstone group final project.

The program will continue through the academic year with additional work for the students and two Saturday events focused on more sophisticated approaches to modeling and simulation.

Participating students receive three semester hours of undergraduate credit and at least a half credit from their high school.
