

COLUMBUS

**2 local companies getting boost from federal grant**

A \$355,000 federal grant will help two central Ohio companies work together to improve the way that manufacturers simulate new processes and functions.

PolymerOhio and Ohio Supercomputer Center will receive one of 22 grants nationwide, Sen. Sherrod Brown, D-Ohio, said yesterday in Columbus.

"This is a great day for the small- and medium-sized manufacturers who will make Ohio a hub for clean energy innovation and technology," Brown said in a statement.
