

# Ohio Supercomputer Center Workshop at Ohio State

## OSC Workshop: Introduction to High Performance Computing at OSC

### WHEN:

Monday,  
Nov. 10, 2014  
2:00 - 4:00pm

### WHERE:

The Ohio State University  
Physics Research Building  
Room PRB1080  
(aka Smith Seminar Rm)

**No Prerequisites Required**

### DELIVERY METHOD:

Presentation and open discussion. Materials will be posted prior to workshop.

**Ohio Supercomputer Center**  
An OH·TECH Consortium Member

This two hour workshop will provide an introduction to Ohio Supercomputer Center resources and how to access them.

### Topics include:

- High performance computing concepts
- Hardware and software available at OSC
- Getting allocations and accounts
- How to connect and log in
- How to move data on and off the systems
- Introduction to batch processing
- Storage and file systems.

**Who Should Attend:** New OSC users, or researchers interested in learning about OSC resources.

**What You Will Need:** Participants who bring a laptop computer will be able to connect to the supercomputers during the workshop. OSC workshop accounts will be provided.
